

TDR8060A

TDR Calibration Kit

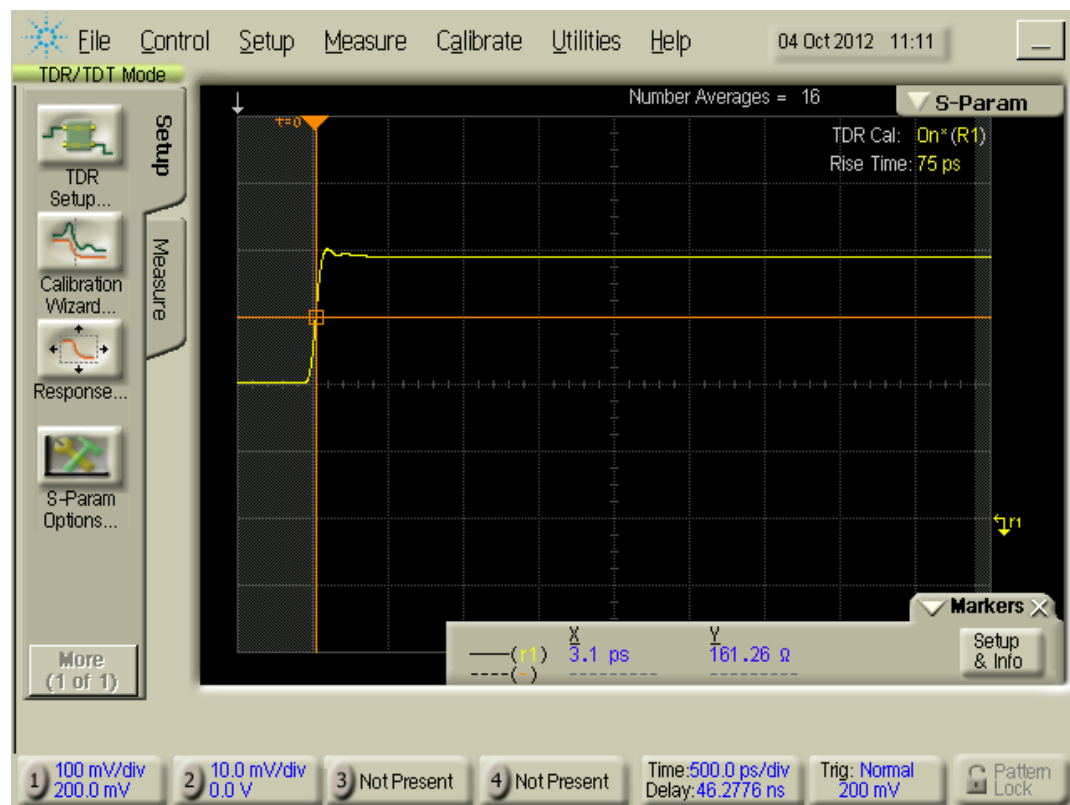

Datasheet

Description

The TDR8060A calibration kit consist FLASH-SHORT and LOAD units in one rugged metal housing. All units featured with female SMA connector. The TDR 8060A cal-kit is suitable for TDR (Time Domain Reflectometer) calibration use.

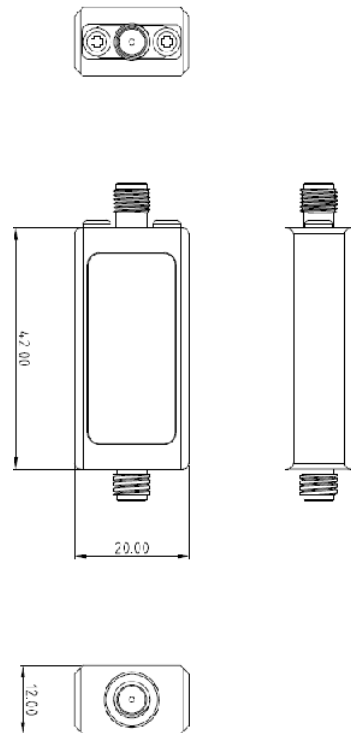

TDR8060A features a FLASH-SHORT which effectively establish TDR time reference plane. See trace waveform below.

FLASH-SHORT establish the time reference plane perfectly aligned with DUT launch plane. Refer the grey area aligned with step pulse rising edge.
